

Join Our Intern Team:

**Want to make a difference in Solano County?
Join our 2021/2022 Intern Cohort!**

- ✚ Participate in weekly individual and group supervision.
- ✚ Actively participate in challenging stigmas that impact access to mental health services.
- ✚ Provide school-based and/or community-based mental health services for youth and adults.
- ✚ Earn a \$2,000.00 stipend per semester.

The Solano County Office of Education (SCOE) is looking for interns for our 2021/2022 (September to June) Internship Program. This program offers an opportunity to further develop clinical skills, while addressing the mental health and resource deficits of Solano County students. SCOE's partnership with local school districts provides increased access to mental health support and case management, regardless of student's socioeconomic status. Interns are provided tools and platforms to become community advocates that challenge stigma that impact mental health wellness. All interns will receive weekly individual and group supervision along with a \$2,000.00 stipend, per semester!
